VOL. VII. NO. 35.

CROSSFIELD ALBERTA, THURSDAY, SEPTEMBER 24th, 1914.

PRICE \$1 A YEAR.

LAUT BROS.

**"Breakfast's Ready
I got it in a jiffy on my MONARCH."**

No worry—no fretting—no fuss. Oven ready for breakfast in 15 minutes after fire is lighted. Heat is the same in every corner of the oven. The Monarch Duplex Draft and Hot Blast Fire Box assures this even temperature. Biscuits and bread not burned in one place and underdone in another as in an ordinary range or cook stove. Baking done "just a turn" with little effort—at little cost—with the assurance that it will "come out" just as you wish it. A dependable range is a real pleasure—a comfort—a pride. Such a one is the

**MONARCH
MALLEABLE RANGE.**

"Make Your Cooking a Daily Pleasure"

We want to go on record as hearty endorsers of the Monarch. We feel that we are justified in recommending it, as those who use it express themselves as being greatly pleased and perfectly satisfied.

We want to show you the Monarch. We want to familiarize you with all its conveniences and improvements. Aside from being a splendidly built range it is equipped with many special features which render it to the economical and efficient housewife.

CROSSFIELD.

Local and General

Mr. R. M. Tucker, who has been on a visit to the Old Country with his wife, paid a visit to Crossfield at the beginning of the week.

Ford cars are getting pretty numerous round here lately, the latest to acquire them are, Capt. Wigle, James Ruddy, Mr. Onell, W. Urquhart and Jas. Cavanaugh. Leslie Farr, of Airdrie, supplied these, he will be right there with the goods, if you want one.

The Ladies' of the Altar Society are arranging for a Thanksgiving (Turkey) Supper, on October 12th, in the L.O.O.F. Hall. Everybody Welcome.

Threshing is going on apace round this district, and to all appearances it will be over in about three weeks. Two outfits arrived in town from Grassy Lake district on Monday. What bit of work there was round there having been completed. A fairly good yield is reported as a general rule round here.

\$500 cash handles 160 acre Farm well improved with buildings, etc. Ten years plan, 6 per cent. interest, and only 4 1/2 miles from town. Write or call for further particulars. CHAS. HULTGREN.

A letter to a local gentleman from C. W. Thomas, who is with the 101st Edmonton Fusiliers Band at Valcartier Camp is interesting reading. The writer says they are kept pretty busy drilling. The bandmen are learning ambulance and first aid work, which will be their task when at the front. Mr. Thomas has two other brothers in camp. They are expecting to leave as soon as their equipment is complete.

M. Mecklenburg, A.M., the reliable Eye Specialist, will again visit Airdrie on Thursday, October 15, in the morning; Crossfield on Thursday, October 15, in the afternoon; and Carstairs, Friday, October 16. If you have anything wrong with your eyes or your glasses do not suit you, see me.

At a meeting held in Calgary, on the 15th inst., it was decided to take immediate steps to re-organize the Alberta Branch of "The Canadian Red Cross Society." A public meeting for that purpose is to be held in Paget Hall, 7th Avenue E., on Wednesday, Sept. 30th, at 8 p.m. Every part of the Province is asked to send a representative. What is Crossfield doing?

We have a number of clients wanting to rent Farms in the Crossfield and Carstairs districts. If you want to secure a good tenant for your Farm send a full description of land and buildings, amount in cultivation, water, fencing, terms, etc., to Hays Brothers, Carstairs, Alberta.

We wish to call the attention of the public to the fact that having discontinued the shipping of hogs during the hot weather, we have decided to again ship hogs and cattle, and we will pay the highest market price. Call and see us for prices and a square deal.

FARMERS MEAT MARKET.

If you want to Sell your Land, List it with me at once I Have numerous enquiries.

If you require to renew your old Loan or take out a new one, call and see me, as I can save you money. I represent The Canada Life, and others.

Alterations in the time of the trains stopping at Crossfield comes into effect on Sunday next.

North bound 1-14, 9-15, 16-38
South bound 5-53, 13-47, 20-40

On arrival home of the newly married young couple, C. MacKay, and his wife to Crossfield, they got a very warm reception, as almost everyone in town was waiting their return, ready to welcome them home.

There was a reception held for Mrs. MacKay, Mrs. Chas. MacKay, also Mrs. H. Murrin, who is here on a visit from B.C. for the wedding. Mrs. Murrin leaves in a few days for her home accompanied by her mother.

Handsome and numerous presents were received by Mr. and Mrs. Chas. MacKay from their many friends.

PORT ARTHUR DISTRICT AND IRON BOUNTIES

Resolutions and Speeches in Support of Bounty For Domestic Ore Reduction

During the past few weeks the subject of iron ore production in Canada has received considerable attention not only in the House of Commons, and the Ontario Legislature, but at various Boards of Trade meetings, including the Associated Boards of Trade of Ontario Convention at Toronto and also in the press.

The proposal that iron bounties should be removed deserves careful consideration alike from the Provincial and the Dominion Governments. It is important that prospecting should be stimulated and undoubtedly great advantages would accrue to

Trca's Barn Destroyed by Fire.

On Wednesday evening about eight o'clock the large horse barn of Trca's about five miles east of town was totally destroyed by fire. Six auto loads of men from town hurried out as soon as possible, but the fire burned so freely that the building was a heap of smouldering ruins before their arrival.

Besides the actual loss of the building Mr. Trca is put to considerable inconvenience at this time of the year by being deprived of his stabling. One registered Percheron mare valued at four hundred dollars was burned to death.

northern Ontario if the iron ores of the district could be satisfactorily produced and marketed. Possibly prospecting could be encouraged by some other methods. At any rate there seems to be as much reason for using public money in order to create iron centres in Northern Ontario as in establishing pioneer farms and assisting agriculture generally. Nothing would be of such advantage to Canada as continuous settlement between Sudbury and Rogers. Probably this outstanding need of Confederation can be met only by discovery and development of the minerals throughout that great range of country. Therefore the authorities at Toronto and at Ottawa can afford to consider sympathetically any proposals likely to assist in developing these resources and can set aside with cheerful courage the fervent protests of timid theorists.

Many years ago Sir Wilfrid Laurier said that protection was the price which a young country must pay for the development of its resources. It is desirable that Canadian Governments should recognize the soundness of the teaching. Moreover they should have the necessary courage to give the teaching practical application.

Good Farming Land in Oregon.

Large Tract of Good Valley Farming Land, just thrown open for free settlement in Oregon. Over 200,000 acres in all. Good climate, rich soil, and does not require irrigation to raise finest crops of grain, fruit and garden truck. For large map, full instructions and information, and a plan of several sections of exceptionally good claims, send \$3.40 to JOHN KEEFE, Oregon City, Oregon. Three pages a U.S. Surveyor and Plumber. An opportunity to get a good fertile free homestead near town and market.

SYNOPSIS OF CANADIAN NORTH- WEST LAND REGULATIONS

THE sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$3.00 per acre.

Duties.—Six months' residence in each of three years after earning homestead patent; also 20 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.00.

The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

W. W. CORY, C.M.G.
Deputy of the Minister of the Interior.
N.B.—Unauthorized publication of this advertisement will not be paid for.

For Sale

For Sale.—A SECTION OF UPLAND HAY.—For particulars apply or address A. J. STONE, 4 miles S.W. of Crossfield P.O. Box 144.

ROBERT WHITFIELD,
Printer and Publisher.

CROSSFIELD, ALTA., SEPT. 24, 1914.

To the Editor,

The prevailing high prices for hogs up to a week ago called out some pretty poor stuff and the farmers should consider that nothing will damage their markets so quickly as to flood it with poor stock. There is only one time to market stock, and that is when it will be graded "Extra Choice."

"Extra Choice" means nothing more than that the farmer has taken care of his stock, fed and cared for them in a way that they will stand up alongside of any competitors and take no points from them. These animals always have and always will draw buyers from all over the continent providing that their appearance is more general than exceptional, and that they can be found at any time on the Calgary market. I was told of a farmer who boasted that in a shipment of hogs that he had sold he shipped in two piggy sows. He thought how smart he was, but he didn't think of the effect that would have on the market. Such acts are not smart, they are foolish, because they help kill the market.

It is regretted that conditions have become so as to practically force some stock on the market at any price, and it is far more regrettable that steps have not been taken to help those farmers so situated, as it will eventually damage the market and cause the Alberta farmers to lose the good name they hold for marketing excellent stock if it is continued. There is no excuse, however, for those farmers outside the afflicted areas to market their stock in poor shape.

The Idaho corn fed hog is a keen competitor of the Alberta hog, and it will keep us going to maintain our lead on him, but it is a fact that the Alberta hog stands well to-day, and by judgment and discretion, fair treatment and constant attention, there is no reason why we should step back for any competitor.

The good stock draws the buyers and competition, and consequently good prices and after all that is what we are after. Each farmer truly recognized how much depends on the condition of his stock at the time of marketing, and the close relationship that this has to the prices paid, he would appreciate how much depends on this matter.

There is another matter which is an important one. The Government, the C.P.M., the Boards of Trade and others, are spending much time and money to get this country stocked with good dairy cattle, but their efforts are immediately frustrated by the farmers if the better calves are killed or sold for killing before they become productive, or as a matter of fact, at all. The economic value of a better calf or a cow to a country like Alberta is enormous, and while it may not seem to some farmers advantageous to raise the calves, so far as heifers are concerned this farmer who kills them or offers them for sale for slaughter is doing an immense harm to himself and to the farming industry of the Province. Keep the heifers, by all means.

Another matter should be brought before the farmer's notice and is of importance as a warning. "Do not ship anything, no matter whether it be livestock, dairy products, or garden truck, that will not reflect to the credit of the Province and of you. The poorer stuff should be marketed locally, in which case you know it is not damaging your foreign markets. Some recent shipments of grain are found to be wet, and in consequence are getting "No grade, rough and wet." During wet weather it is inadvisable to thresh. A little patience and the wind and the sun will put your grain in among the grades again. The prices are good and the farmer should take full advantage of them by exercising a little patience and threshing after the grain in stock has dried again. Be honest with yourself, and those with whom you are dealing, and you will not go far wrong.

Yours very truly,

CALGARY BOARD OF TRADE.

POULTRY WANTED!

For Thanksgiving Trade we will require a large number of Turkeys either alive or dressed, and we believe you will do well to market all birds that are ready then. We should receive all shipments for Thanksgiving trade not later than Oct. 7th. We are also open to buy all other kinds of poultry alive or dressed. Also Pigeons, Rabbits and strictly New Laid Eggs. We can supply shipping crates free, except express on charged to you. Write for Price List to

Peerless Poultry and Produce Co. Ltd.

KEEPING HOME TRADE

Western View of Civic and Practical
Patriotism—Help Your Town

In a timely editorial in a recent issue, the Calgary Standard has this to say: "Conservation is a watchword of to-day. Businesses are being made more profitable, oftentimes not so much by extending to new and untried fields, as by developing the existing field and saving leaks."

Similarly in the life of the trade community. Securing a new industry to locate here would be profitable to our community. But if our people can be persuaded to buy the products of home industries, rather than patronizing the industries of some other town, the same result is accomplished and with much less risk of loss.

The money is placed in circulation here and it helps to build up your own town, rather than helping to build up some other town.

"The man who preaches and practices the idea of patronizing home industries is helping to build up his town just as surely as if he made it some fine gift. And it costs nothing to talk up home enterprises!"

"Prices of goods tend to equalize themselves the world over. If you get an article for less in some distant department store, it is because you have to take more pains and time to get it. Or you have to make it up in payment of express charges, or in the fact that the guarantee of good value is less satisfactory."

All that applies to the development of a town or city through the carrying out of a policy such as advocated above applies with infinitely greater force to the development of a country such as Canada. The Germans with their "Made-in-Germany" policy, and the people of the United States, with their "Made-in-U.S.A." slogan, have in the past fifty years made marvellous progress in building up self-contained nations. The opportunity to do likewise lies at Canada's door, and if her rulers are not led astray by false economists, who would tear down the stable trade policy under which Canada has made uniform progress in all fields of development in the past thirty years, there is no doubt that not only Calgary but all other cities and towns in Canada will see a welcome growth in the diversified industries they have within their borders."
